

ADULT CARDIAC DOCUMENTATION FORM – PHYSICIANS

Patient Identifier: _____

Provider NPI: _____

Measure 20

4047F – Documentation of order for prophylactic antibiotics to be given within one hour (if fluoroquinolone or vancomycin, two hours) prior to surgical incision (or start of procedure when no incision is required); – **OR** –

4048F – Documentation that for prophylactic antibiotics **was given** within one hour (if fluoroquinolone or vancomycin, two hours) prior to surgical incision (or start of procedure when no incision is required).

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 21

4041F – Documentation of order for cefazolin or cefuroxime for antimicrobial prophylaxis. (*Note: 4041F is provided for antibiotic ordered or antibiotic given.*)

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 43

4110F – Internal mammary artery graft performed for primary, isolated coronary artery bypass.

Circle applicable statements:

IMA was used: Yes No

Reason (if not used):

- Medical reasons – absence or IMA, already received/performed, contraindicated (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 44

4115F – Beta-blocker administered within 24 hours prior to surgical incision.

Circle applicable statements:

Patient did NOT receive pre-operative beta-blocker.

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 45 (*For cardiac procedures only*)

4043F – Documentation that order was given to discontinue prophylactic antibiotics within 48 hours or surgical end time, cardiac procedure – **AND** –

4046F – Documentation that prophylactic antibiotics were given within 4 hours prior to surgical incision or given intraoperatively – **OR** –

4042F – Documentation that prophylactic antibiotics were neither given within 4 hours prior to surgical incision nor given intraoperatively (*Note: Use 4042F to report if patient does not meet denominator inclusion because patient did not receive prophylactic antibiotics within specified timeframe.*)

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

GENERAL THORACIC DOCUMENTATION FORM – PHYSICIANS

Patient Identifier: _____

Provider NPI: _____

Measure 20

4047F – Documentation **of order** for prophylactic antibiotics to be given within one hour (if fluoroquinolone or vancomycin, two hours) prior to surgical incision (or start of procedure when no incision is required) **OR**

4048F – Documentation that for prophylactic antibiotics **was given** within one hour (if fluoroquinolone or vancomycin, two hours) prior to surgical incision (or start of procedure when no incision is required)

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 21

4041F – Documentation of order for cefazolin or cefuroxime for antimicrobial prophylaxis. (*Note: 4041F is provided for antibiotic ordered or antibiotic given.*)

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 22 (*For non-cardiac patients only*)

4049F – Documentation that order was given to discontinue prophylactic antibiotics within 24 hours or surgical end time, non-cardiac procedure **AND**

4046F – Documentation that prophylactic antibiotics were given within 4 hours prior to surgical incision or given intraoperatively **OR**

4042F – Documentation that prophylactic antibiotics were neither given within 4 hours prior to surgical incision nor given intraoperatively (*Note: Use 4042F to report if patient does not meet denominator inclusion because patient did not receive prophylactic antibiotics within specified timeframe.*)

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)

Measure 23

4044F – Documentation that an order was given for venous thromboembolism (VTE) prophylactic to be given within 24 hours prior to incision time or 24 hours after surgery end. (*Note: 4044F is provided for VTE prophylactic is ordered or VTE prophylactic is given.*)

Circle applicable statements:

Ordered: Yes No (if no standing orders)

Suspended: Yes No

Reason:

- Medical reasons – allergic, potential adverse drug interaction, already received/performed (1P)
- Action not performed, reasons not otherwise specified (8P)
