## A

- Abiomed total artificial heart, 197
- ACE inhibitors, 118
- adenovirus, 199
- Agnew Clinic, The*, 16
- Akutsu, Dr. Tetsuzo, 186, 189
- alcohol
  - blood lipids, relationship between, 53–54
  - breast cancer link, 55
  - consumption, 51, 53–54
  - dangers, 55
  - French Paradox, 52
  - life expectancy, 56
  - mortality rates, 55
  - pattern of consumption, 54
  - red wine consumption, 54
  - scientific data summary, 55
  - wine drinker profile vs. beer drinker profile, 54
- alpha-linoleic acid, 49
- alveoli, 35
- ambulatory electrocardiogram monitoring, 74
- American Association of Thoracic Surgery, 19
- American College of Cardiology, 69
- Amosov, Nikolay, 30–31
- anasarca, 63
- anastomosis, 222
- aneurysms
  - aortic, 223–225
  - catheter treatment, 225
  - challenges, surgical, 224
  - diagnosis, 224
  - discovery, 223
  - dissection, 226–227
  - stent treatment, 225
  - stent-graft treatment, 225–226, 231–232
  - surgical treatment, 230
  - symptoms, 223
  - types, 223–225
- angina pectoris, 42, 159
  - classic symptoms, 60
  - signaling impending heart attack, 61
- angiogenesis, 199
- angiography, coronary, 86
- angiography, pulmonary, 86

## INDEX

- antibiotic protection, dental surgery, 57
  - anticoagulant use, 134
  - aorta, 32, 38, 96
  - aortic arch, 103
  - aortic incompetence, 159
  - aortic valve, 35, 64
  - aortic valve disease, 158–159
  - aortic valve incompetence, 159–160
  - aortic valve stenosis, 64, 158–159
  - aortomyoplasty
    - advantages, 193
    - application, 193
    - definition, 192
  - Arbulu, Dr. Agustin, 163
  - argyria, 66
  - arrhythmia, 64, 74
    - advancements in studies, 217
    - atrial, 140
    - atrial fibrillation, 215, 218
    - atrial tachycardia, 216
    - bradycardia, 214
    - causes, 205, 217
    - defibrillators, implantable, 215
    - definition, 205
    - diagnosis, 205
    - future treatments, 217
    - management, 214–215
    - observations, 217
    - sinus rhythm, 205
    - strokes from, 219
    - surgery, 218
    - surgical development, 218–219
    - surgical options, 218–219
    - symptoms, 205, 215, 217
    - tachyarrhythmia, 215
    - tachycardia, 214
    - treatment, 205, 214
    - triggers, 217
    - ventricular, 216
  - arterial blood samples, 81
  - arterial oxygen levels, 81
  - arterial revascularization, 241
  - arterial system, 221
  - artery, definition, 33
  - atherosclerosis, 45
  - artificial heart, 186
    - Akutsu, Dr. Tetsuzo, 186
    - Clark, Barney, 188
    - Cooley, Dr. Denton, 186
    - DeBakey, Dr. Michael, 186
    - development, 186
    - DeVries, Dr. William, 188
    - first implantation, 186
    - flaws, 200
    - Jarvik, Dr. Robert, 188
    - Jarvik-7, 187–188
    - Jarvik-2000, 201
    - Kolff, Dr. Willem, 186, 188
    - left ventricular assist devices, 200
    - obstacles, 186
    - technological future, 200–201
  - ascites, 63, 162
  - atherectomy, 90
  - atherosclerosis, 53
  - atherosclerotic disease, 227– 228
  - atrial fibrillation, 140, 215–216, 218
  - atrial septal defect, 91, 102
  - atrial tachycardia, 216
  - atrioventricular canal defect, 102
  - atrioventricular node, 206
- B**
- Bailey, Dr. Charles, 112, 150
  - Bailey, Dr. Leonard, 107
  - Bakken, Earl, 207
  - balloon angioplasty, 71
  - balloon catheter therapy, 91, 163

## STATE OF THE HEART

- Barnard, Dr. Christiaan, 180–181  
Barratt-Boyes, Sir Brian, 101, 154  
Batista procedure, 198  
    application, 190  
    mortality rates, 190–191  
Batista, Dr. Randas, 190, 198  
Beck, Dr. Claude, 111  
Berk Enamelworks, 188  
beta blockers, 118  
Bethea, Dr. Morris C., 49  
Blalock, Dr. Alfred, 27  
Blalock-Taussig shunt, 30, 96  
blood  
    amount in body, 37  
    arterial and venous oxygen levels, 81–82  
    clotting process, healthy, 37  
    complexity, 37  
    coughing up, 62  
    journey through heart, 33, 36  
    oxygenated, 35, 37  
    unoxygenated, 37  
blood clots. *See also* embolus  
    deep vein thrombosis, 228  
    filter implantation, 229  
    healthy, 37  
    pulmonary embolus, 229  
    superficial thrombophlebitis, 228  
    venous, 228  
blood pressure, 45  
    definition, 36  
    device to measure, 38  
    diastolic pressure, 36  
    high, 45  
    low, very, 67  
    measurement, 38  
    phases, 36  
    pregnancy (*see* pregnancy)  
    sphygmomanometer, 38  
    systolic pressure, 36  
    understanding readings, 36, 38  
blood tests, 80  
blue baby operation, 96–97, 105  
body fat, 49  
bone marrow, 37  
brachial artery, 133  
bradycardia, 214  
breast cancer, alcohol consumption link, 55  
breathing problems, 61–62.  
    *See also* dyspnea  
Brock, Sir Russell, 27, 180  
Brukhonenko, Dr. S.S., 21  
bubble oxygenator, 27, 29  
bundle of His, 38  
bypass graft closure, 250
- ### C
- calcium channel blockers, 119  
Cambridge Heart Anti-Oxidant Study, 47–48  
Campbell, Dr. J.M., 151  
canola oil, 49  
capillaries, 33, 35  
Cappelen, Dr. Ansel, 18  
carbohydrates, 50–51. *See also* nutrition  
cardiac catheterization.  
    *See* catheterization, cardiac  
cardiac cycle, 38–39  
cardiac enzymes, 80  
cardiac malformations, 99  
cardiac rehabilitation programs, 249  
cardiac rehabilitation, 141, 248  
cardiac surgeons. *See* surgeons, cardiac  
cardiac tamponade, 67  
cardiac ultrasound, 42  
cardiogenic shock, 67

## INDEX

- cardiologists, 83
  - accreditation, 68
  - board certification, 69
  - choosing, 69
  - diagnostic testing used by, 70–71
  - interventional, 68
  - referral to, 68
  - referral to cardiac surgeon, 71
  - self-referral, 68
  - specialization, 68
  - typical visit to, 69–70
- cardiomyopathy, 61
- cardiomyoplasty, 156, 191
- cardioplegia solution, 136
- Cardiovascular Surgery, Institute of, 31
- carotid artery, 96
- Carpentier, Dr. Alain, 155–157, 169, 171, 192
- Carrel, Dr. Alexis, 111, 179, 222
- catheter heart valve procedures, 90–91
- catheterization, cardiac, 42, 71
  - angiography, coronary, 86–87
  - angiography, pulmonary, 86
  - applications, 85–86, 88
  - atherectomy, 90
  - blood samples taken during, 87
  - catheter heart valve procedures, 90–91
  - coarctation of the aorta, 91
  - definition, 85
  - description, 85
  - diagnostic use, 86
  - first performed, 85
  - Forssmann, Dr. Werner, 85–86
  - Gruentzig, Dr. Andreas R., 89
  - hematoma, 88
  - insertion, 87
  - labs, 84, 87
  - laser use, 90
  - nobel prize, 86
  - patent ductus arteriosus, 91
  - paths, 87–88
  - percutaneous transluminal coronary angioplasty, 88–89
  - preliminary experiments, 85
  - procedure, 85, 87
  - radiopaque dyes, 87
  - rates, national, 85
  - removal, 88
  - Richards Jr., Dr. Dickenson W., 86
  - risks, 88
  - Sigwart, Dr. Ulrich, 90
  - Sones, Dr. Mason, 87
  - stenting, 90
  - therapeutic, 88–90
  - transmyocardial laser revascularization, 90
  - transposition of the great arteries, 91
  - treatment use, 86
- cerebral vascular accident, 67
- Chachques, Dr. Juan Carlos, 192
- Chardack, Dr. William, 206
- chest computed tomography, 76
- chest pain, 59–60
- chest x-ray, 42, 76
- chloroform, 17–18
- cholesterol, 45–46. *See also* nutrition
  - definition, 45
