## Administration

| RecordID: | ______________________ |
| Date of Surgery: | _____/_____/_______ mm-dd-yyyy |

Indicate the date of surgery (the date the patient enters the operating room). - This field corresponds to the STS Adult Cardiac Surgery field "Surgery Date" (SeqNo: 270) and is being collected to ensure records are linked to Adult Cardiac Surgery database records correctly.

### Physician Quality Reporting Initiative (PQRI)

#### Reason for Not Performing an IMA Graft:
- **Not applicable** (not a CABG Procedure or IMA was used)
  - Procedure performed was not a CABG procedure, or it was a CABG procedure and an IMA graft was performed
- **Medical Reasons**
  - (CMS CPT II Measure Exclusion Modifier: 4110F-1P) - Documentation of medical reasons for not performing an IMA graft (e.g., not indicated, contraindicated)
- **Patient Reasons**
  - (CMS CPT II Measure Exclusion Modifier: 4110F-2P) - Documentation of patient reasons for not performing an IMA graft (e.g., patient declined, economic, social, religious, or other reasons)
- **System Reasons**
  - (CMS CPT II Measure Exclusion Modifier: 4410F-3P) - Documentation of system reasons for not performing an IMA graft (e.g., resources to perform the services not available, insurance or coverage/payor-related limitations; other reasons attributable to health care delivery system)
- **Not performed, reason not specified**
  - (CMS CPT II Measure Reporting Modifier: 4110F-8P) - IMA graft not performed, reason not specified

#### Reason for Not Receiving Preoperative Beta-Blocker:
- **Not applicable** (not a CABG Procedure or Beta-Blocker was used)
  - Procedure performed was not a CABG procedure, or it was a CABG procedure and a Beta Blocker was used
- **Medical Reasons**
  - (CMS CPT II Measure Exclusion Modifier: 4115-1P) - Documentation of medical reasons for not administering Beta Blocker within 24 hours prior to surgical incision (e.g., not indicated, contraindicated)
- **Patient Reasons**
  - (CMS CPT II Measure Exclusion Modifier: 4115-2P) - Documentation of patient reasons for not using a Beta Blocker within 24 hours prior to surgical incision (e.g., patient declined, economic, social, religious, or other reasons)
- **System Reasons**
  - (CMS CPT II Measure Exclusion Modifier: 4115-3P) - Documentation of system reasons for not using a Beta Blocker within 24 hours prior to surgical incision (e.g., resources to perform the services not available, insurance or coverage/payor-related limitations; other reasons attributable to health care delivery system)
- **Not received, reason not specified**
  - (CMS CPT II Measure Reporting Modifier: 4115-8P) - Beta Blocker not administered, reason not specified
Reason for Not Discontinuing Prophylactic Antibiotics:

○ Not applicable (antibiotics neither given within 4 hours prior to surgical incision nor given intraoperatively, or antibiotics were discontinued)
  (CMS CPT II: 4042F) - Antibiotics were not given within 4 hours prior to surgical incision, were not given intraoperatively, or were given and discontinued

○ Medical Reasons
  (CMS CPT II Measure Exclusion Modifier: 4043F-1P) - Documentation of medical reasons for not discontinuing prophylactic antibiotics (e.g., not indicated, contraindicated)

○ Patient Reasons
  (CMS CPT II Measure Exclusion Modifier: 4043F-2P) - Documentation of patient reasons for not discontinuing prophylactic antibiotics (e.g., patient declined, economic, social, religious, or other reasons)

○ System Reasons
  (CMS CPT II Measure Exclusion Modifier: 4043F-3P) - Documentation of system reasons for not discontinuing prophylactic antibiotics (e.g., resources to perform the services not available, insurance or coverage/payor-related limitations; other reasons attributable to health care delivery system)

○ Not performed, reason not specified
  (CMS CPT II Measure Reporting Modifier 4043F-8P) - Prophylactic antibiotics not discontinued, reason not specified
