About STS

The Society of Thoracic Surgeons (STS) is the world's largest professional organization representing all members of the cardiothoracic surgery team, including surgeons, researchers, and allied health professionals. The STS mission is to improve the lives of patients with cardiothoracic diseases. STS offers a variety of advertising and sponsorship opportunities for your company to reach the cardiothoracic surgery community through its digital and print publications, podcasts, webinars, website, and more.

STS Print and Online Journal

The Annals of Thoracic Surgery is the most read and most cited cardiothoracic surgery journal in the world. First published in 1965, *The Annals* is an international, peer-reviewed journal that provides outstanding original coverage of recent progress in adult and congenital cardiovascular and chest surgery and related fields. This leading monthly receives approximately 2,000 manuscripts for consideration annually and maintains rigorous acceptance standards under the leadership of Editor-in-Chief, Joanna Chikwe, and a distinguished editorial board.

STS WEEKLY
February 19, 2025
Listen to Debate on Sublobar Resection
In a new episode of Thinking Thoracic broadcast live at STS 2025, cohosts Drs. Erin Gillette, Neil Kishore, Jeff Yang, and Jane Yungas participate in a debate on sublobar resection. Gain unique perspectives and best practices from these experts on the extent of resection and quality metrics in lung cancer care, as well as other changing trends. Listen on the STS website or subscribe to the Thinking Thoracic podcast channel on Apple, Spotify, iHeart, or other popular listening platforms. Listen to Debate on Sublobar Resection

CORA
Your AI Cardiothoracic Online Resource Assistant
Ask CORA, STS's AI-Based Education Tool
Interact with CORA – the Cardiothoracic Online Resource Assistant – and gain concise summaries from the latest STS vetted educational content, clinical research, clinical practice documents, educational videos, and more. A member benefit, CORA is an AI resource built specifically for cardiothoracic surgeons that synthesizes the latest research and provides quick access to resources that may help inform complex cases. www.sts.org/cora

STS TweetChat
Join Early Career X Chat on Prioritizing Wellness
Dr. Erin Gillette (@ErinGillette) and members of the STS Workforce on Career Development will host a virtual X chat on Building Wellness into Your Early Practice on Wednesday, Feb. 26, at 8 p.m. ET. Join the discussion and hear how early career cardiothoracic surgeons are focusing on personal wellness while providing expert patient care. Follow the conversation using the hashtag #CTCareers

STS National Database
Trusted. Transformed. Real-Time.
Submit General Thoracic A&P Research Proposals by March 10
The Society is seeking new Access & Publications (A&P) clinical research proposals from STS National Database participants based on data available in the General Thoracic Surgery Database. STS funding is available for novel, well-conceived, and hypothesis-driven proposals. Applying investigators should refer to www.sts.org on the STS website for more information. Submissions are due **Monday, March 10**. Inquiries and proposals should be sent to jessica.thorogate@sts.org
