IQVIA Update
Joe Brower

Upcoming June 2021 Release

The following update was deployed the weekend of June 26.

Please note: Updates are posted to the Notifications section within the IQVIA platform.

General Update

- IQVIA Platform will be upgraded from version 1.41.1 to version 1.43.1
 - Uploader user workflow change has been implemented. (Covered in next slide)

Uploader Workflow Update

The uploader was updated to allow for the support of uploading different categories of form types.

*Users will select the Case Form option within the Form Type drop down menu on the uploader interface.

**We are collaborating with our product development team to default this option for users.

The screenshot displays the 'Participant Details' form on the uploader interface. The form fields are as follows:

- Name: Test Facility
- ID: 12345
- City: (empty)
- State: Unavailable
- Form Type: (dropdown menu)

The 'Form Type' dropdown menu is highlighted with a red box, showing two options: 'Patient Forms' and 'Case Form'. The 'Case Form' option is selected. Above the form, there is a warning message: 'ATTENTION NEW IQVIA DIRECT DATA ENTRY USERS ONLY' and 'The below instructions DO NOT apply to users who are using a third party software vendor to enter and update data.' Below the form, there is a file upload area with the text 'Drag and Drop File Here to Upload' and 'Choose File from Computer' (Max File Size: 50 MB).

IQVIA Upcoming Release

Items below will be targeted for an upcoming release by IQVIA development team. Release timing is July 2021.

Primary Procedure Report

STS-6325 - Primary Procedure Mismatch Report Exception Rule 1 is being ignored and using the general rule

STS-6337 – Primary Procedure Report not correctly applying exception Rule 2 for combination code selected

IQVIA Upcoming Release

**Items below will be targeted for an upcoming release by IQVIA development team.
Release timing is TBD.**

CHSD Missing Variable Report

STS-6211 – CHSD MVR Report – The ProCmplxCon4Ds3 variable is appearing as missing but should not appear as missing

STS-6343 - CHSD MVR Report – The “Unknown” option should be considered as MISSING for the Mortality Status At Database Discharge (mtdbdisstat) on the missing variable report

STS-6427 - CHSD MVR Report – The Missing Variable Report flagging the OnDemandVrsn as missing for migrated records

STS-6340 – CHSD MVR Report - Remove the MT365STAT variable from the Mortality Filter and remove “[2]” in the name column for shortname MT365STAT in MVR

IQVIA Update

Please note: Submitted tickets are currently under review and the IQVIA support team will follow up on resolution and/or target release confirmation.

The IQVIA Team is currently reviewing items that will be released in an upcoming release. Those items will be posted to the Notifications section.

IQVIA Support Plan

Please include your Participant ID

IQVIA's Support Plan
