2021 AQO: A Data Managers Meeting

ADVANCES IN QUALITY & OUTCOMES:
A Data Managers Meeting
October 12–15, 2021 ■ VIRTUAL

October 12, 2021 - October 15, 2021

Virtual Meeting

Registration is open!

The 2021 Advances in Quality & Outcomes (AQO): A Data Managers Meeting features sessions for all four components of the STS National Database. Surgeon leaders and data managers will gather during AQO this year – virtually – to share valuable research and important clinical findings with the goal of improving data collection and patient outcomes. Each day is dedicated entirely to one registry:

- Tuesday, October 12 – Intermacs/Pedimacs
- Wednesday, October 13 – General Thoracic
- Thursday, October 14 – Adult Cardiac
- Friday, October 15 – Congenital

A detailed agenda with speakers and session times will be available in the coming weeks.

Registration is free for STS National Database participants.*

Please provide your contact information if you would like to receive updates.

[View the Preliminary Agenda]   [Add Calendar Reminder]

Pricing

Registration is required for all attendees. Your registration entitles you to participate in any or all of the meeting days.

STS National Database Participant*	FREE
General Attendee Multiday – STS Member	$300
General Attendee Multiday – Non-Member	$400

If you are not an STS National Database participant, you will need an STS Member ID in order to receive the discounted member rate. For help with your STS Member ID, contact Member Services.

Intermacs and Pedimacs participants: click the designated button below to register.

[Register Now]   [Register for Intermacs]

*To receive free registration for AQO, you must be an STS National Database Participant assigned to one of these roles:

- **Adult Cardiac, General Thoracic, and/or Congenital Heart Surgery Databases**: Surgeon Representative, Participant Surgeon, Anesthesiologist Representative, Anesthesiologist, Primary Data and File Contact, Primary Direct Data Entry Contact, Backup Data and File Contact, Backup Direct Data Entry Contact, Data Quality Report Recipient, or National Report Recipient.

IQVIA Update
Joe Brower

IQVIA Known Issues

Items below are under review by the IQVIA development team and will be included in a future release.

Missing Variable Report

- **STS-6892 –** ApgarKnown variable will be added to the MVR calculation for cases where demographic version is prior to 3.3

- **STS-7282** – Anesthesia Adverse event variable will be added to the MVR report calculation

- **STS-7271** – COVID19 variable (TempCode) will be added to the MVR report calculation

IQVIA Known Issues Con't

Items below are under review by the IQVIA development team and will be included in a future release.

Primary Procedure Report

STS-7126 - Primary Procedure Mismatch Report Exception Rule 1 is being ignored and using the general rule, VSD repairs are displayed as the recommended primary

STS-7240 – Exception Rule related to codes 1280 and/or 1660 are not recognized in identified scenarios

IQVIA Update

Please note: Submitted tickets are currently under review and the IQVIA support team will follow up on resolution and/or target release confirmation.

The IQVIA Team is currently reviewing items that will be released in an upcoming release. Those items will be posted to the Notifications section.
