**THORACIC SURGEON**

Maine Medical Partners Surgical Oncology is seeking a Thoracic Surgeon to join their well-established practice at Maine Medical Center. The Thoracic Surgery practice is located in MaineHealth's Cancer Center Scarborough, ME, in close proximity to MaineHealth's flagship hospital, Maine Medical Center. The practice is currently comprised of two Thoracic Surgeons, who provide care for patients from across Maine.

In addition to caring for inpatient and outpatient thoracic patients, the candidate will provide consultative services to MATRix, a multidisciplinary patient review committee, the Thoracic Oncology Clinic (TOC) Multidisciplinary Clinic along with Medical Oncology and Radiation Oncology.

The ideal candidate will have 5 years of experience, be a board certified thoracic surgeon with an expertise in minimally invasive techniques, who has a collaborative approach to patient care, as well as an interest in clinical research. The thoracic surgery program at Maine Medical Center is currently comprised of two highly trained and skilled surgeons who care for patients with benign and malignant diseases of the lungs, chest wall, pleural space, mediastinum, esophagus and foregut. Within our current model, minimally invasive surgical approaches are used as much as possible in the treatment of both benign and malignant pathology; however, the surgeons also have the expertise to perform advanced open operations and have support available as needed from other specialists throughout the MaineHealth system. We have a strong and collaborative team of Radiologists, Pathologists, Pulmonologists, Surgeons, Medical and Radiation Oncologists and nurse navigators to assist with the customized plan of care for each patient as well as an integrated tumor board for thoracic malignancies.

Maine Medical Partners is a division of Maine Medical Center and is Maine's largest multi-specialty medical group serving the healthcare needs of patients locally and throughout northern New England. This diverse and reputedly trained team of 600 physicians and 350 advanced practice professionals provides a wide range of hospital based, primary, specialty, and sub-specialty adult and pediatric care delivered throughout a network of 54 locations across the State and acts as a regional referral network.

Maine Medical Center has 637 licensed beds and is the state's leading tertiary care hospital and Level One Trauma Center, with a full complement of residencies and fellowships and an integral part of Tufts University Medical School. The candidate would have an academic appointment at Tufts University School of Medicine, and the position involves teaching and mentoring residents and medical students from the Maine Medical Center-Tufts University School of Medicine Medical School Program.

Situated on the Maine coast, Portland offers the best of urban sophistication combined with small-town friendliness. The area provides four season recreational opportunities, such as skiing, hiking, sailing, and miles of beautiful beaches. Enjoy an abundance of rich cultural opportunities and great schools in a safe

community environment. Just two hours north of Boston, this is an exceptionally diverse and vibrant community.

Maine Medical Partners is committed to creating an equitable, inclusive environment that is welcoming to diverse faculty.
