IQVIA New Reports

Melanie Bent

Upcoming CHSD Reports

*** September 2020** (Released 9/12)

Case Eligibility for Inclusion in Mortality Analysis

*** September 2020**

(TBD – Incorporating Feedback)

Primary Procedure Mismatch Report

Risk Adjusted
Dashboard

(based on DCRI
Risk Adjusted
Harvested Data)

Primary Procedure Mismatch Report Update

- Notification has been sent to the participating beta reviewers to notify the environment will be reopened on Tuesday, 10/6
- Beta reviewers are using their production site data when conducting this review to allow them to review real-world scenarios
- The report will allow them to see the comparison with the assigned harvest code, procedure description, case navigation and key identifiers that will allow them to cross reference their software vendor assigned IDs

CHSD Harvest Checklist Review

CHSD Harvest Close Checklist

☐ Upload procedures for the identified reporting period for the harvest

Steps to Clean Up Your Data

☐ Review the Data Quality Report

- Review critical errors; if encountered, resolve those errors to allow the identified records to save successfully to the data warehouse
- Review error and warning messages; if encountered, resolve the errors related to analyzed patient records

☐ Review the Critical Summary Report

- Enter the submission date range
- Review specific submission details related to total number of records submitted to the data warehouse, successful, failed, and records not updated

CHSD Harvest Close Checklist

Steps to Clean Up Your Data Con't

☐ Review the Harvest Summary Report

- Enter the surgical date range
- Review outstanding errors and warnings in a single report; this report is holistic and not submission specific

☐ Review the Missing Variable Report

- Enter the surgery date range to review variables identified as missing
- Review identified variables and make updates within software vendor system
- Once updates are made, export file and upload to IQVIA
- Re-run report to review updates to confirm items are addressed

CHSD Harvest Close Checklist

Steps to Clean Up Your Data Con't (UPDATED)

☐ Review the Case Analysis for Mortality Inclusion Report

- Select the predefined surgical date range
- Review the identified Ineligible cases for each respective surgical year
- Update the missing variables for the respective cases in your software vendor system and upload those updates to the IQVIA platform

☐ Review the Primary Procedure Mismatch Report

- Select the predefined surgical date range
- Review the cases that have been identified as a “mismatch” on the report
- Please note that the primary procedure selected in your software may not match the primary procedure ultimately assigned by DCRI at the time of analysis

CHSD Harvest Close Checklist

Reviewing the Full Picture

☐ Review the CHSD Participant Dashboard Report

- Enter the required report parameters (date, procedures, age and index)
- Review the available report sections to analyze results based on the patient records that are available within the data warehouse
- Review the breakdown analytics of different areas such as:
 - ✓ Operation Types
 - ✓ Mortality Status at Hospital Discharge
 - ✓ Status at 30 Days after Surgery
 - ✓ Operative Mortality

IQVIA's Support Plan

^ Inquiries received outside live support hours will require a 24-hour turnaround window (i.e., one business day) for responses.
